SUMMARY

Computer Science and Business Systems undergraduate with strong foundations in software development, full-stack web applications, and data analytics. Experienced in building end-to-end solutions using Python, JavaScript, ML models, and cloud fundamentals. Quick learner with strong problem-solving and collaboration skills, seeking to contribute for the future enhancements

EDUCATION

CVR College of Engineering

Bachelor of Technology in Computer Science and Business Systems

Hyderabad

Sep 2023 – Jun 2027

PROJECTS

Smart Resume Analyzer

Technologies Used: Python, Flask, NLP, Google Gemini AI, SQLite, REST APIs, HTML, CSS

- Developed a Smart Resume Analyzer that automatically parses resumes, extracts skills, and analyzes profiles using NLP techniques.
- Integrated AI-based feedback and ATS-style scoring to provide role recommendations and resume improvement insights.

Price Comparison Website

Technologies Used: HTML, CSS, JavaScript, Python, Web Scraping, JSON, Google Sheets

- Developed a price comparison website that collects and displays product prices from multiple e-commerce platforms in a single interface.
- Used Python web scraping and Google Sheets integration to store, update, and serve real-time pricing data dynamically.

EXPERIENCE

Infosys Springboard Internship

Nov 2025 – Jan 2026

Project-Based Learning(team project)

- Built a full-stack bike rental demand prediction system using machine learning to forecast hourly and daily demand.
- Trained LightGBM and XGBoost models with engineered features to improve prediction accuracy.
- Integrated AI-powered chatbot, user authentication, and interactive dashboards for insights and user interaction.

TECHNICAL & PROFESSIONAL SKILLS

Programming Languages: Python, Java, C/C++, JavaScript, SQL, R

Core Concepts: Object-Oriented Programming (OOPS), SDLC,operating systems,Networking,Data Structures, Version Control

Web & Backend Technologies: HTML, CSS, React,FlaskA

Data Analytics & Machine Learning: Pandas, NumPy, Scikit-learn, LightGBM, XGBoost, Feature Engineering, Model Evaluation, Tableau

Databases: MySQL, SQLite, NoSQL

Developer Tools: Git, VS Code, PyCharm, Eclipse, Visual Studio

Professional Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Initiative, Flexibility, Critical Thinking, Time Management,Leadership,strong adaptability
